

GIMDES Halal and Tayyib Workshops Program
24-25 October 2015, Istanbul, Turkey

Dr ABDUL MAJID KATME AND VACCINES

Dr Katme has carried out his Islamic Medical study on vaccines in 2011, which was published in the US by the International Medical Council on vaccination.

The link to the study: <http://www.vaccinationcouncil.org/2011/01/20/islam-vaccines-and-health-2/>

Dr Katme is involved with hundred of non Muslim doctors and parents organisations in the west who are very concerned with the many physical harms and diseases affecting many children from the harmful chemicals in vaccines. Its effectiveness is QUESTIONABLE? These western scientists have many hundred of websites.

Most Vaccines were found to contain many MUHARRAMAT(forbidden ingredients) which are not known to the Muslims and parents in the world and are forbidden to consume. Many vaccines contain a lot of NAJASSAT(Faeces, urine,pus...)

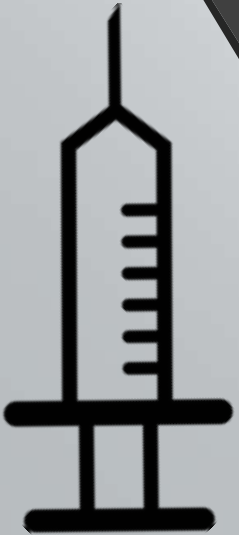

There are many NATURAL and ISLAMIC ways to avoid a lot of infections and many ALTERNATIVES to vaccines. Dr Katme is asking for an URGENT OPEN TRANSPARENT SCIENTIFIC ISLAMIC DEBATE ON VACCINES AND VACCINATION

This is one of the Big DECLARATION signed by hundred of non Muslim doctors and scientists who exposed vaccines and opposed vaccination:

<http://www.vaccinationcouncil.org/2011/02/13/vaccines-get-the-full-story/>

ISLAMIC MEDICAL ANALYSIS OF VACCINES

DEFINITION OF A VACCINE

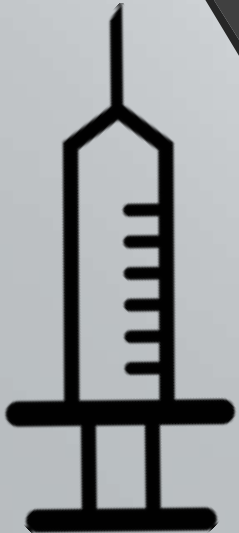

A vaccine is a biological preparation that improves immunity to a particular disease. A vaccine typically contains an agent that resembles a disease-causing microorganism, and is often made from weakened or killed forms of the microbe, its toxins or one of its surface proteins. The agent stimulates the body's immune system to recognize the agent as foreign, destroy it, and "remember" it, so that the immune system can more easily recognize and destroy any of these microorganisms that it later (WHO)

Vaccine Ingredients ?????

Vaccines contain many HARAM/FORBIDDEN ingredients:

- Pork, animal, human and foetal parts, alcohol.... Plus:
NAJASSAT (filth/unhygienic parts)
- Pus from sores of diseased animals, horse serum, calf serum, **NAJASSAT/UNHYGIENIC** faecal matter, foetal cells, urine, macerated cancer cells, egg proteins sweepings from diseased children
 - Formaldehyde (a carcinogen used in embalming fluid)
 - Phenol (a carcinogen capable of causing paralysis, convulsions, coma, necrosis and gangrene), lactalbumin hydrolysate (an emulsifier)
 - Aluminium phosphate (an aluminium salt that is corrosive to tissues)
 - Retro-virus SV-40 (a contaminant virus in some polio vaccines)
 - Antibiotics (e.g., neomycin, Polymixin...) that lead to antibiotic resistance
 - Chick embryo (as a growth medium for the virus), sodium phosphate (a buffering salt)
 - foreign animal tissues containing genetic material (DNA/RNA) from the growth medium

Vaccine Ingredients ?????

Vaccines contain many **HARAM/FORBIDDEN** ingredients:

- Mycoplasma, bacteria, monkey viruses and various adjuvants
- Heavy metals: thimerosal (mercury) as a preservative and aluminium as an adjuvant. Mercury and aluminium have each been proved to damage the brain and nervous system. Mercury is linked to some cases of Autism, In some cases, thimerosal has been replaced by another neurotoxin known as 2PE.
- Vaccines also contain monosodium glutamate, sorbitol, and gelatine(?PORK)
 - Borax (linked to infertility)

Many ingredients are not allowed for Muslims, Jews, Hindus or vegetarians....

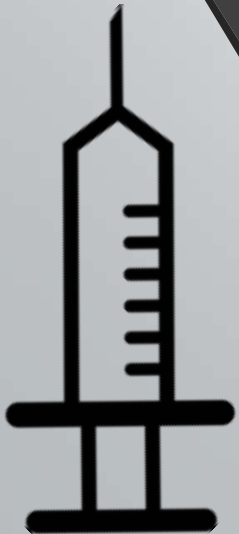

The vaccine companies have the legal right to AVOID DECLARING THE INGREDIENTS IN MANY VACCINES?

THE MANY CONCERNS REGARDING VACCINES

Most vaccines were found to contain today :

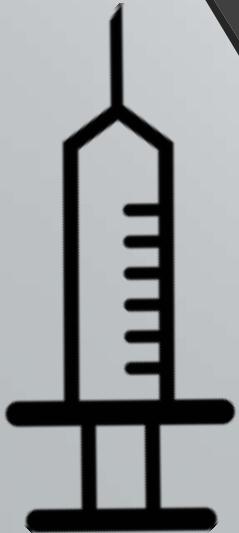

- 7-10 forbidden/HARAM ingredients which are not allowed for the Muslims to consume like: Porcine substances, foetal parts, Gelatin/pork, alcohol, animal parts(pig, dog, monkey..) etc... Many ingredients in vaccines are prohibited too to: Jews/Hindus/Vegetarians...
- Also it is not allowed for the Muslims to consume: parts of faeces and urine pus and pork which are present in many vaccines: They are considered unhygienic (Najassat)
- There have been some reports lately by the Bishops in Kenya about some vaccines causing infertility /miscarriage to some women. (vaccines boycotted after) It is forbidden for Muslims to take any substance which can cause infertility.
- Muslims are more concerned lately about the many harmful toxic chemicals in many vaccines like: Mercury and Aluminium which can cause diseases and death

THE MANY CONCERNS REGARDING VACCINES

Most vaccines were found to contain today :

- Vaccines are linked to many cases of Autism
- Vaccines are linked to SIDS(Sudden Infant Death Syndrome)
- Vaccines are linked to many ALLERGIC diseases(like Asthma...)
- Vaccines are linked to AUTO-IMMUNE Diseases
 - Vaccines are linked to some CANCERS
 - Vaccines contain VIRUSES which might cause some diseases
 - Vaccines are linked to many degenerative and neurological diseases
 - Vaccines disrupt the natural function of the immune defence system, brain function, endocrine function, hormone function and cellular function , especially in the first 2 years of life
 - Vaccines can alter the DNA/genetic make-up of the person
 - Vaccines deposit known toxins in the body that lead to a long term, cumulative effect.

THE MANY CONCERNS REGARDING VACCINES

Most vaccines were found to contain today :

- Vaccine substances interact with many other toxins in the body causing a synergistic toxic effect, multiplying overall toxicity.
- Vaccines interfere with the body's natural ability to get rid of toxins.
- Vaccines cost the people of all nations trillions of dollars every year.
- Vaccines place a huge burden on the treasury and tax system of each country either through paying vaccine manufactures, administration costs or through disability and ill health.
 - Unvaccinated children and adults are shown to be naturally healthier and visit the doctor and hospital less.
 - It is shown that in disease epidemics, the vast majority of sufferers have been previously vaccinated, whereas the unvaccinated rarely contract the disease.

THE MANY CONCERNS REGARDING VACCINES

Most vaccines were found to contain today :

- Vaccine ingredients and substances can be legally hidden by laws and regulations. You can never be sure what is being injected.
- USA, laws have been written protecting vaccine manufacturers and doctors from being sued by vaccine damaged sufferers. Why should such protection be given if vaccines are totally harmless?
 - It is impossible to prove that any vaccines provide immunity against any disease. No independent scientific evidences which proved that vaccines are effective? No double blind studies/no proper follow up/reporting of serious side effects or death from vaccines
 - Lack of SAFETY in many vaccines
 - Some vaccines were found to cause the disease they are supposed to protect?
 - Vaccines may be used to secretly put harmful (or Haraam) substances into the Muslim's, affecting mind, body spirit and fertility and to catch a person

THE MANY CONCERNS REGARDING VACCINES

Most vaccines were found to contain today :

- Vaccines that have been found to be very dangerous and banned, are still stockpiled, sold and administered to poorer countries causing much disease.
- Official data and graphs usually show a short term picture and try to suggest that vaccines wiped out disease. But data and graphs from the very same official sources (spanning a longer period) clearly show that many diseases declined well before any vaccine was introduced.
 - There is a lack of fully informed consent/transparency for the parents to decide before vaccination
 - It is **UNETHICAL** to carry on with a vaccine for every ill
 - There are **ALTERNATIVES** to vaccines
 - There are many natural Islamic ways to prevent a lot of infections

VACCINES CAN CAUSE INFERTILITY

VACCINE INJURIES/VACCINE COMPENSATION

Since 1987 more than 3 billion dollars have been paid out by the US Vaccine Court to families of those injured or killed by vaccines. Here's a PDF breaking down the amount <http://www.hrsa.gov/vaccinecompensation/data.html> and here

YOUR RIGHTS FOR INFORMED CONSENT BEFORE VACCINATION

PARENTS/ADULT'S RIGHTS TO FULLY INFORMED CONSENT AND TRANSPARENCY BEFORE VACCINATION

The prescribing physician must ensure:

1/ To read with and ensure the patient has fully understood the full manufacturer product information including safety, efficacy and necessity and communicate all ingredients forbidden to the patient's faith

2/ To inform him or herself on current issues not on the package inserts and:

- To educate the patient on the symptoms, treatment and risk factors of the disease being vaccinated for
- To communicate to the patient the current public health risk as reported by official statistics for 'confirmed', not suspected, current cases of the disease
 - To discuss with the patient openly and without bias all possible alternative measures
 - To discuss with the patient all reported side effects and contraindications and the reported deaths as reported on Vaccine Adverse Event Reporting Systems globally.

YOUR RIGHTS FOR INFORMED CONSENT BEFORE VACCINATION

- To identify for the patient only double blind random selected and benign placebo trials for safety and efficacy
 - To discuss with the patient recompense in the case of an adverse effect from the vaccine
 - To ensure the patient understands whether this vaccine is required by law or simply recommended.
 - To ensure the patient is aware of any exemptions or waivers permissible under law.
 - To ensure the patient is aware that the manufacturer is not liable for any adverse effect from the vaccine.
- 3/ To protect the patient's right to choose to appropriately protect fully the developing and developed natural immune defence alternatively
- 4/ To solicit and answer all questions without bias
- 5/ To take a full medical and family medical history before prescribing
- 6/ To inform the patient of his or her right to a second opinion

YOUR RIGHTS FOR INFORMED CONSENT BEFORE VACCINATION

7/ To ensure the patient is fully informed

8/ To require the patient to sign a consent form, detailing which of the above points have been fully understood

9/ To fully and transparently disclose any and all financial gain you personally and your establishment or clinic receive in the form of payment, bonuses, benefits or non-material gains whether from pharmaceutical manufacturers, NGOs or the government for promoting this and other vaccinations

THE NATURAL IMMUNE DEFENCE SYSTEM

THE NATURAL STRONG IMMUNE DEFENCE SYSTEM to destroy most infections by :

- Formation/Foundation in first 2 years of life by breastfeeding
- Pure safe drinking water
- Healthy nutrition/diet
- Proper sanitation
 - Washing hands/Hygiene

STRENGTHENING AND MAINTAINING THE NATURAL IMMUNE DEFENCE SYSTEM:

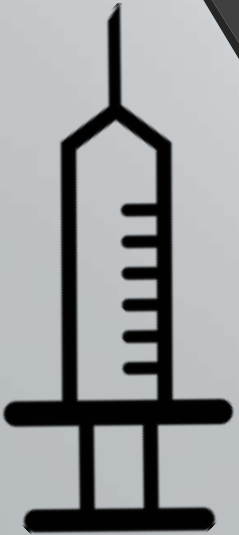

- No alcohol/ No smoking, no drugs, no stress, Salat/Fasting (intermittent), Nap/siesta/good sleep, Natural halal tayyib meat/foods/fruits vegetables and drinks, pomegranate, ginger, fish, barley, date, healthy gut flora, exposure to germs, no air pollution, Hijama, black seed, exercises, no loneliness or isolation, Zam Zam water, tooth care, Hope/positive , Vit D, halal sexual satisfaction

THE NATURAL IMMUNE DEFENCE SYSTEM

THE NATURAL SAFE EFFECTIVE ISLAMIC WAYS TO AVOID MANY INFECTIONS:

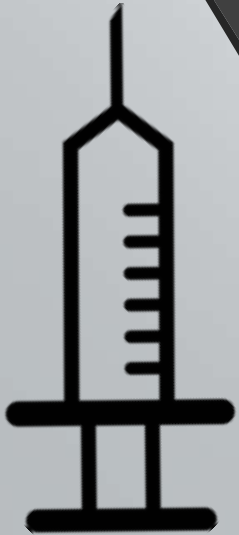

- Varieties of different strong permanent natural antibodies
- Hand washing
- Tonsils/Skin/White blood cells
- No cross infection

- 
- **The pathological state of DENIAL?**
 - **The lack of knowledge of Muftis/Ulamas on vaccines**
 - **Infections/germs can be good for you**
 - **Chastity...not vaccine for cancer of the Cervix?**
 - **The huge bill paid for compensation?**
 - **Mandatory vaccines???**

The urgent need for DEBATES on vaccines
(scientific/medical/theologian...)

DR ABDUL MAJID KATME(MBBCh, DPM)

Islamic Medical Researcher on vaccines :

His first study on vaccines was published in 2011 in the US

Involved in 3 Muslim websites on vaccines

Weekly TV Presenter: ISLAM FOR YOUR HEALTH

Weekly radio broadcaster

Ex-President: Islamic Medical Association/UK
